

Dear Educator,

Thank you so much for teaching the *Dr. Rosie Helps the Animals* two-day lesson which integrates science, art, and literacy. Here, you will find the lesson plan and associated resources that can be downloaded and modified to meet your needs and the needs of your students. The companion education website: drrosiehelpstheanimals.org has gallery space for student work. We would love additional submissions. Please do not include any identifying information and please obtain parental consent before submitting student work. The work can be photographed and sent as email attachments to: info@waterbearpublishing.com.

Day 1: Read the book and process with students (suggested questions are provided in the teacher guide).

Day 2: Have students create a picture showing and explaining how they have helped (or plan to help) an animal (s).

In the teacher package, you will find (downloadable and editable documents)

- Parent Letter and Release
- Teacher Lesson Plan Template
- Dr. Rosie Slide Show
- Teacher Guide: Empathy Questions
- Educator's guide to empathy building (adapted from the RedRover Readers Program)

THE TEACHER MATERIALS ARE DESIGNED TO BE USABLE IN GRADES K-2. EMPATHY QUESTIONS ARE PROVIDED AS EXAMPLES FOR YOU TO USE IF WANTED.

Thank you again for reading *Dr. Rosie Helps the Animals*.

Respectfully,

Waterbear Publishing
